Q12 With the understanding that the district will work to make the board adopted schedule the best it can be for our students and staff, and that variations will likely be implemented with any of the schedule options, which of the following schedule options do you prefer for UHS?

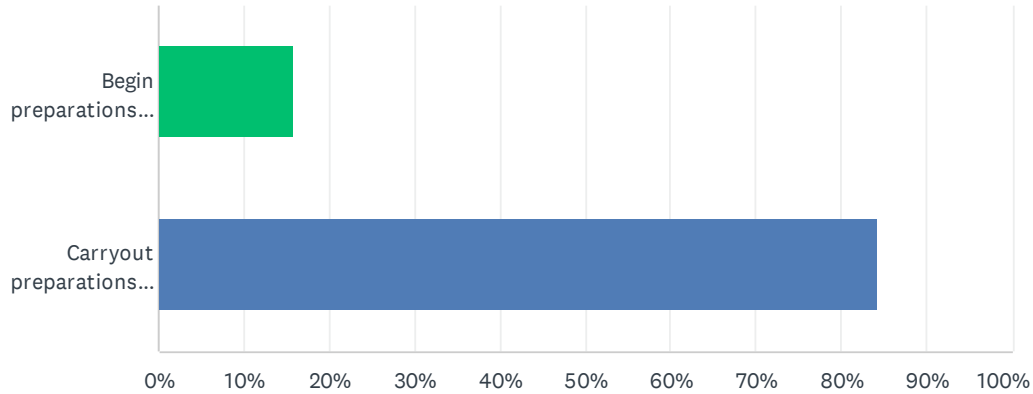

Answered: 84 Skipped: 3

ANSWER CHOICES	RESPONSES	
Keep the current 5-class trimester schedule in place with 68 minute classes and 15 annual course offerings with a graduation requirement of 26 credits.	88.10%	74
Adopt a 6-class trimester schedule with 55 minute classes and 18 annual course offerings. This option would cut 21 hours of instructional time per course credit and the graduation requirement would increase from 26 to 32 credits.	8.33%	7
Adopt a 5X5 semester block schedule with ten 68 minute class periods (5 each day) using an A-B day rotation with up to 20 annual course offerings. Select core classes will be "expanded" or taught every day for the year, increasing instructional time and extra support for students. This option will cut 32 hours of instructional time per course credit in classes that are not "expanded" or taught every day. Graduation requirements for this option would increase from 26 to 30 credits.	3.57%	3
