Technical Assistance for Excellence in Special Education
2009

**Reviewed by PEAK Parent Center January
2009.**

This document was developed by the Mountain Plains Regional Resource Center, an affiliate of the Center for Persons with Disabilities, a University Affiliated Program at Utah State University.

The Mountain Plains Regional Resource Center operates under Grant No. H326R04006 with the Office of Special Education Programs (OSEP), U.S. Department of Education. Partial support is also provided by Utah State University. The content of this document does not necessarily reflect the position or policy of OSEP or USU and no official endorsement should be inferred.

This information could be made available in alternative format, including large print, Braille, audio, tapes, or computer diskette.

Greetings!

And welcome to the world of Special Education.

As you participate in the special education process, you will encounter unfamiliar language and acronyms. The language is often referred to as “acronyms.” It may seem like a foreign language, but it is really just a language of initials. These initials are explained and defined in this booklet.

Often, during meetings, many of these terms and acronyms are used frequently, and it is assumed that everyone is familiar with the meaning. If you are in a meeting and this occurs, feel free to ask, “what does that term mean?”

This booklet has been designed to provide the common terms and acronyms and give the definitions of these special education terms. It might be helpful for you to read and study the contents of this booklet before you attend a meeting for your child. If you have any questions, ask your child’s classroom teacher.

Acronyms Quick Reference Guide

ADA	Americans with Disabilities Act
ADD	Attention Deficit Disorder
ADHD	Attention Deficit Hyperactivity Disorder
AG	Annual Goal
APE	Adapted Physical Education
APR	Annual Performance Report
ASHA	American Speech-Language-Hearing Association
ASL	American Sign Language
AT	Assistive Technology
AU	Autism
AYP	Adequate Yearly Progress
BD	Behavior Disorders
BIE	Bureau of Indian Education
BIP	Behavioral Intervention Plan
CEC	Council for Exceptional Children
CFR	Code of Federal Regulations
CD	Cognitive Delay
CHADD	Children and Adults with Attention-Deficit/Hyperactivity Disorder
CIFMS	Continuous Improvement and Focused Monitoring System

COTA	Certified Occupational Therapist Assistant
CSPD	Comprehensive System of Personnel Development
CP	Cerebral Palsy
DB	Deaf-Blindness
DD	Developmental Disability
DNR	Do Not Resuscitate
DOH	Department of Health
DPH	Due Process Hearing
DPHO	Due Process Hearing Officer
DSM-IV	Diagnostic and Statistical Manual IV
ED	Emotional Disturbance
EI	Early Intervening
ESY	Extended School Year
FAPE	Free Appropriate Public Education
FBA	Functional Behavior Assessment
FERPA	Family Education Rights and Privacy Act
FM	Focused Monitoring
GS	General Supervision
GT	Gifted and Talented
HI	Hearing Impaired
HIPAA	Health Insurance Portability Accountability Act
HQT	Highly Qualified Teacher

ICC	Interagency Coordinating Council
IDEA	Individuals with Disabilities Education Act
IEE	Individual Education Evaluation
IEP	Individual Education Program
IFSP	Individual Family Service Plan
IHCP	Individualized Health Care Plan
IQ	Intelligence Quotient
LA	Lead Agency
LD	Learning Disability
LEA	Local Education Agency
LEP	Limited English Proficiency
LoD	Level of Determination
LRE	Least Restrictive Environment
NASDSE	National Association of State Directors of Special Education
NCLBA	No Child Left Behind Act
NECTAC	National Early Childhood and Technical Assistance Center
NIMAC	National Instructional Materials Access Center
OCR	Office for Civil Rights
ODD	Oppositional Defiant Disorder
OHI	Other Health Impaired
OI	Orthopedic Impairment
O&M	Orientation and Mobility

OSEP	Office of Special Education Programs
OSERS	Office of Special Education and Rehabilitation Services
OT	Occupational Therapy
P&A	Protection and Advocacy
Part B	Special Education—School-Aged Children
Part C	Special Education—Birth—Two Years Old
PDD	Pervasive Development Disorders
PE	Physical Education
PLAAFP	Present Levels of Academic Achievement and Functional Performance
PT	Physical Therapist
PTAC	Parent Technical Assistance Center
PTI	Parent Training and Information
RM	Resolution Meeting
RRC	Regional Resource Center
RTI	Responsiveness to Intervention
SA	Self-Assessment
SAT	Student Assistance Team
SEA	State Education Agency
SEAP	State Special Education Advisory Panel
Section 619	Special Education—3–5 Years Old
SI	Sensory Integration
SL	Speech Language

SLP	Speech Language Pathologist
SPDG	State Personnel Development Grant
SPP	State Performance Plan
STO	Short Term Objective
TAT	Teacher Assistance Team
TBI	Traumatic Brain Injury
TDD/TTY	Telecommunications Device for the Deaf
USDE	United States Department of Education
VI	Visual Impairment
VR	Vocational Rehabilitation

Common Terms and Definitions

Many terms have different meanings across States. The following, to the maximum degree possible, follow frequently used definitions.

Accommodations: Special academic and/or behavioral adjustments that assist a student to participate in the general education classroom, also known as supplemental aids and services. Accommodations do not change what is being measured or taught, only the way it is delivered. (See modifications.)

Adapted Physical Education (APE): A component of the educational curriculum in which physical, recreational, and other therapists work with children who exhibit delays in motor development and perceptual motor skills. It is a

related service some children might need in addition to or in place of physical education.

Adequate Yearly Progress: The degree of progress for children in academic areas established by the State Education Agency.

Advocate: An individual who represents or speaks on behalf of another person's interests (as in a parent with his/her child).

American Sign Language (ASL): A method of communicating by using hand signs. Each sign represents either one word or a concept that is typically expressed with several spoken words. For words that do not have a sign, finger spelling is used.

American Speech-Language-Hearing Association (ASHA): The national professional association for speech and language therapists and audiologists.

Americans with Disabilities Act (ADA): A civil rights law that prohibits discrimination against persons with disabilities in the areas of accessibility, employment, public services, public accommodations, transportation, and communication.

Annual Performance Report: The report that is submitted by each State to the U.S. Department of Education that provides data and information on compliance and results of special education for children with disabilities.

Aphasia: A communication disorder characterized by difficulty with producing language and/or with understanding language.

Assessment: The gathering of information by qualified personnel on a child's development and on the needs and priorities of the family. This information about the child and family is used in planning the Individual Family Service Plan (IFSP).

Assistive Technology Device (AT): Any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of individuals with disabilities. Public schools are required to consider the assistive technology needs of students with disabilities.

Attention Deficit Disorder (ADD): A neurobiological disorder. Typically, children with ADD have developmentally inappropriate behavior, including poor attention skills and impulsivity. These characteristics arise in early childhood, typically before age seven, are chronic, and last at least six months. Children with ADD may also experience difficulty in the areas of social skills and self-esteem.

Attention Deficit Hyperactivity Disorder (ADHD): A neurobiological disorder. Typically, children with ADHD have developmentally inappropriate behavior, including poor attention skills, impulsivity, and hyperactivity. These characteristics arise early in childhood, typically before age seven, are chronic, and last at least six months. Children

with ADHD may also experience difficulty in the areas of social skills and self-esteem.

Autism (AU): A developmental disability significantly affecting verbal and non-verbal communication and social interaction.

Autism and Pervasive Developmental Disorder:

Developmental disabilities that share many of the same characteristics. Usually evident at age three, autism and PDD are neurological disorders that affect a child's ability to communicate, understand language, play, and relate to others.

Behavioral Assessment (BA): Gathering (through direct observation and by parent report) and analyzing information about a child's behavior. The information may be used to plan ways to help the child change unwanted behaviors. Observations include when a behavior occurs as well as the frequency and duration of the behavior.

Behavior Disorders (BD): A term used by some States for children who exhibit difficulties with social interactions and inappropriate behavior that interferes with learning.

Behavior Intervention Plan (BIP): A plan that is put in place to teach a child proper behavior and social skills. It should be positive in nature, not punitive.

Bureau of Indian Education (BIE): The government agency that oversees and assists in the educational affairs of the Native Americans. The BIE operates schools in 23 States.

Cerebral Palsy (CP): A disorder of movement and posture control resulting from non-progressive damage to the brain during fetal life, the newborn period, or early childhood. Both genetic and acquired factors may be involved. It may be caused by a lack of normal fetal brain development or by injury to the brain. The extent and location of the brain damage determine the type of cerebral palsy and the associated symptoms.

Certified Occupational Therapist Assistant (COTA): An individual who has received special training and instruction in the area of occupational therapy.

Child Find (CF): A required federal program that requires States to actively locate children, birth to age 21, with developmental disabilities or who are at risk for developmental disabilities. It particularly focuses on children not enrolled in school programs.

Children and Adults with Attention-Deficit/Hyperactivity Disorder (CHADD): A national organization that provides information, training and support for individuals interested and/or impacted by ADD/ADHD.

Cognitive Delay (CD): A disability where a child's intellectual and adaptive behavior is below average and impacts the child's education.

Consent: Written parent permission before initial evaluation and placement in special education

Continuous Improvement and Focused Monitoring Process (CIFMP): The monitoring process used by the U.S. Department of Education to check compliance and results of special education in States.

Council for Exceptional Children (CEC): The largest international professional organization dedicated to improving educational outcomes for individuals with exceptionalities, students with disabilities, and/or the gifted.

Comprehensive Educational Evaluation: The evaluations and observations done by the school staff to find out if the child has a disability and requires special education and related services. The school's multi-disciplinary team is required to do this evaluation and hold a meeting with the parent to discuss the results. A parent may choose to share any evaluation and assessment information done by the child and family agency or by other qualified persons.

Comprehensive System of Personnel Development (CSPD): A State or school plan to train and provide technical assistance for school staff and parents.

Deaf-Blindness (DB): Concomitant hearing and visual impairments that cause severe communication, developmental, and educational needs.

Department of Health (DOH): The government agency whose mission is to promote health and sound health policy, prevent disease and disability, improve health services systems, and ensure that essential public health functions and safety net services are available.

Developmental Disability (DD): Any physical or mental condition that begins before the age of 18 years, causes the child to acquire skills at a slower rate than his/her peers, is expected to continue indefinitely, and impairs the child's ability to function in society.

Diagnostic and Statistical Manual IV (DSM-IV): The American Psychiatric Association's classification and description of behavioral and emotional disorders.

Disability: A substantially limiting physical or mental impairment that affects basic life activities such as hearing, seeing, speaking, walking, caring for oneself, learning, or working.

Due Process: A process for resolving a dispute between the family and the child and family service agency related to the delivery of early intervention services. In special education, due process refers to a process for resolving a dispute between the family and the public school related to the identification, evaluation, or placement of a child with disabilities.

Due Process Hearing: A legal proceeding, similar to a court proceeding where a hearing officer is presented evidence by disagreeing parties. A verbatim record is taken of the proceedings, and a hearing officer writes a decision that may be appealed to the State education agency, and if desired, to a civil court.

Due Process Hearing Officer: The trained and neutral individual who conducts the due process hearing.

Dyslexia: A learning disability in which the child has difficulty with reading due to difficulty distinguishing written symbols. For example, transposing letters and words such as reading “top” as “pot.”

Dyspraxia: Difficulty with planning and performing coordinated movements although there is no apparent damage to muscles.

Early Intervening: A general education responsibility, providing evidence-based strategies for students experiencing academic and behavioral difficulties.

Early Intervention: Specialized services provided to infants and toddlers ages birth to three who are at risk for or are showing signs of developmental delay.

Educational Assistant (EA): A person who provides assistance to students under the supervision of the teacher.

Emotional Disturbance (ED): A condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects educational performance.

- A) An inability to learn that cannot be explained by intellectual, sensory, or health factors;
- B) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- C) Inappropriate types of behavior or feelings under normal circumstances;
- D) A tendency to develop general pervasive mood of unhappiness or depression; or
- E) A tendency to develop physical symptoms or fears associated with personal or school problems.

Extended School Year (ESY): The delivery of special education and related services during the summer vacation or other extended periods when school is not in session. The purpose for ESY is to prevent a child with a disability from losing previously learned skills. The IEP team must consider the need for Extended School Year at each meeting and must describe those services specifically with goals and objectives. Not all special education students require an extended school year. Extended school year services must be individually developed to meet the child's unique needs.

Family Education Rights and Privacy Act

(FERPA): A federal law that protects the privacy and transfer of student education records.

Family Infant Toddler Program (FIT): A

program that provides early intervention services to help families who have concerns about the development of their young child (birth to three).

Fidelity: The unflinching fulfillment of one's duties and obligations and strict adherence to vows or promises. Fidelity means to implement a program as it was intended; to ensure that all services are delivered correctly (e.g., that a reading program is implemented correctly).

Focused Monitoring: A monitoring approach that examines those requirements most closely relating to improving results for children with disabilities and those States most in need of support to improve compliance and performance.

Free Appropriate Public Education (FAPE): An individualized educational program that is designed to meet the child's unique needs and from which the child receives educational benefit.

Functional Behaviors: Behaviors (basic skills, such as meal-time skills) the child has mastered, or needs to master, in order to get along as independently as possible in society.

Functional Behavior Assessment (FBA): A process that examines why a child behaves the way he or she does given the nature of the child and what is happening in the environment. It is a process for collecting data to determine the possible causes of problem behaviors and to identify strategies to address the behaviors.

Gifted & Talented (GT): Those students with above average intellectual abilities.

Head Start: A federal program started in 1965 aimed at providing a comprehensive preschool program for children ages three to five from low-income families. Planned activities are designed to address individual needs and to help children attain their potential in growth and mental and physical development before starting school.

Health Insurance Portability Accountability Act (HIPAA): Federal law that outlines the confidentiality and protection of medical records.

Independent Educational Evaluation (IEE): An evaluation conducted by a qualified examiner who is not employed by the school district responsible for the education of the child.

Individuals with Disabilities Education Act (IDEA): The federal law that provides the legal authority for early intervention and special educational services for children birth to age 21. Part B outlines services for children ages three to 21. Part C outlines services for children birth to age three.

Individualized Education Program (IEP): A written statement of a child's current level of educational performance and an individualized plan of instruction, including the goals, specific services to be received, the staff who will carry out the services, the standards and timelines for evaluating progress, and the amount and degree to which the child will participate with typically developing peers (Inclusion/Least Restrictive Environment). The IEP is developed by the child's parents and the professionals who evaluated the

child and/or are providing the services. It is required by the Individuals with Disabilities Education Act (IDEA) for all children eligible for special education.

Individual Family Service Plan (IFSP): The written document that defines the early intervention services provided to the child and family. The program is designed to meet the needs of the child and the family, and is based on family-identified priorities.

Interagency Agreement: A document signed by authorized representatives of at least two agencies outlining mutually agreed upon responsibilities to perform certain duties under specified conditions.

Interagency Coordinating

Council: A council established for the purpose of advising and assisting in the development and implementation of quality services for infants and toddlers with disabilities. State councils are required by IDEA.

Individualized Health Care Plan (IHCP): A plan developed by the school nurse in collaboration with parents and teachers that outlines specific health care procedures to be provided to a student.

Intelligence Quotient (IQ): The score of an intelligence test that is a form of psychological testing of an individual's capacity to learn and deal effectively with his/her environment.

Learning Disability (LD): A disorder in one or more of the basic psychological processes involved in understanding or using spoken or written language that may manifest itself in an imperfect ability to listen, think, speak, read, write, or spell or to do mathematical calculations.

Least Restrictive Environment (LRE): The placement for children with disabilities that is, to the maximum extent appropriate, including children in public or private institutions or other care facilities, where they are educated with children who are not disabled, and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Limited English Proficiency (LEP): Children whose primary language is other than English.

Local Education Agency (LEA): The public schools operating in accordance with statutes, regulations, and policies of the State Department of Education.

Modifications: Change or alterations to what is being measured or taught. Modifications create a different standard for children whose disabilities require more intense adjustments. Modifications are also typically included in the IEP. (See accommodations.)

Music Therapy: A therapeutic service to meet recreational or educational goals. Music therapy

includes playing instruments, moving to music, singing, and listening to music. It is used in a variety of applications in schools, hospitals, and private settings through both individual and group approaches, often in conjunction with other types of therapy. Both music education and music therapy contribute to special education by promoting learning and self-growth through enjoyable activities.

National Association of State Directors of Special Education (NASDSE): The national organization for State special education directors, which provides support in the delivery of quality education to children and youth with disabilities throughout the country. <http://www.nasdse.org/>

National Early Childhood and Technical Assistance Center (NECTAC): The organization funded by the U.S. Department of Education that provides technical assistance in the area of early childhood special education.

Natural Environment: The natural or everyday settings for your child. These are places where the child would be if they didn't have a special developmental concern. It is where all children would be (for example, home, childcare, parks, etc.).

No Child Left Behind Act (NCLBA): Reauthorized in 2001, the Elementary and Secondary Education Act (ESEA) is the principal federal law affecting education from kindergarten through high school for children "at risk." The NCLBA provides opportunities for children to learn and progress.

Occupational Therapist (OT): A professional who provides therapy services based on engagement in meaningful activities of daily life such as self-care skills, education, recreation, work or social interaction.

Office for Civil Rights (OCR): The Office for Civil Rights enforces several federal civil rights laws that prohibit discrimination in programs or activities that receive federal financial assistance from the Department of Education.

Office of Special Education Programs (OSEP): Dedicated to improving results for infants, toddlers, children, and youth with disabilities ages birth through 21 by providing oversight, leadership, and financial support to assist States and local districts. OSEP administers the Individuals with Disabilities Education Act (IDEA).

Oppositional Defiant Disorder (ODD): Children who exhibit defiant and anti-social behaviors over a long period of time and environment.

Orientation and Mobility (O&M): Services provided to the blind or visually impaired by qualified personnel to enable a child to safely move in school and other environments.

Orthopedic Impairment (OI): Any orthopedic impairment that adversely affects a child's educational performance.

Other Health Impaired (OHI): An educational classification that describes students who have chronic or acute health problems that cause limited strength, vitality, or alertness that adversely affects a child's educational performance.

Pervasive Developmental Disorders (PDD): Refers to the overall category of Pervasive Developmental Disorders that includes autism, Rett Syndrome, Asperger's syndrome, PDD-NOS, and Childhood Disintegrative Disorder.

Part B: The section of the federal special education regulations that addresses school-aged children with disabilities.

Part C: The section of the federal special education regulations that addresses children birth through two years.

Physical Education (PE): The area of general education that addresses a student's physical development.

Physical Therapist (PT): A professional who is devoted to improving a person's physical abilities through activities that strengthen muscular control and motor coordination.

Preschool Special Education: An educational program that is designed to meet the unique developmental needs of an individual child with a disability who is three, four, or five years of age. It is a child-focused educational effort. Sometimes referred to Section 619 of the law.

Present Levels of Academic Achievement and Functional Performance (PLAFFP): Statements written in the IEP that accurately describe the student's strengths, weaknesses, and learning styles.

Prior Written Notice (PWN): Must inform parents of their rights. It is a form that the school must use to tell parents why they're doing what they're doing or why they're not doing what they're not doing—they must tell parents in writing.

Protection and Advocacy (P+A): The Protection and Advocacy System is a private, nonprofit organization that protects and promotes the rights of people with disabilities.

Parent Technical Assistance Center (PTAC): The regional center that works to strengthen the connections between State parent centers and the OSEP Technical Assistance and Dissemination Network and fortify partnerships between Parent Centers and education systems at local, State, and national levels.

Parent Training and Information (PTI): Each State has a Parent Training and Information center to assist parents of children with disabilities to become more knowledgeable about special education and their child's disability.

Regional Resource Center (RRC): Funded by the U.S. Department of Education, there are six RRCs that provide technical assistance in special education for State Education Agencies.

Related Services: A service that assists a student to benefit from special education. Examples are physical therapy, occupational therapy and school counseling.

Responsiveness to Intervention (RTI): A general education process that provides support for students experiencing academic and behavioral difficulties.

Screening: The process of looking at a child's development to find out if there are any areas of concern. It is used to recommend children for more in-depth evaluation.

Section 504 Coordinator: A school employing 15 or more persons must assign a person to coordinate compliance with Section 504 regulations. It is recommended that all school districts appoint a 504 coordinator. It is recommended that the same individual serve as the Title VI, Title IV, and Americans with Disabilities Coordinator.

Section 504 of the Rehabilitation Act: A federal law that protects the civil rights of individuals with disabilities. This law is closely intertwined with IDEA. Children with disabilities who are not eligible for special education may qualify for accommodations under Section 504 if they meet the 504 eligibility criteria.

Section 619: Authorizing section of Part B of IDEA that requires States to provide preschool services to children with disabilities, ages three to five.

Self-stimulation: Often referred to as stimming, these are abnormal behaviors, such as head banging, watching the fingers wiggle, or rocking side to side, that interfere with the child's ability to "sit still" and pay attention or to participate in meaningful activity.

Sensory Integration Disorder (SID or SI): Also known as Sensory Integration Dysfunction—The inability to process information received through the senses, causing problems with learning, development, and behavior.

Sensory Integration Treatment (SI): A technique of occupational therapy that provides playful, meaningful activities that enhance an individual's sensory intake and lead to more adaptive functioning in daily life.

Short Term Objectives (STO): Part of a child's IEP that breaks down an annual goal into small measurable steps. Optional except for students taking alternate assessments.

Special Education: Specialized instruction tailor-made to fit the unique learning strengths and needs of students with disabilities. A major goal of special education is to teach the skills and knowledge the child needs to be as independent as possible. Special education programs focus on academics and also include therapy and other related services to help the child overcome difficulties in all areas of development. These services may be provided in a variety of educational settings but are required by IDEA to be delivered in the least restrictive environment.

Specific Learning Disability (SLD): A disorder that affects the ability to listen, think, speak, read, spell, or do mathematical calculations.

Speech and Language (SL) Disorders:

Problems in communication and related areas such as oral motor function. These delays and disorders range from simple sound substitutions to the inability to understand or use language or use the oral-motor mechanism for functional speech and feeding. Some causes of speech and language disorders include hearing loss, neurological disorders, brain injury, mental retardation, drug abuse, physical impairments such as cleft lip or palate, and vocal abuse or misuse. Frequently, however, the cause is unknown.

Speech Language Pathologist (SLP): A trained therapist who provides treatment to help a person develop or improve articulation, communication skills, and oral-motor skills. Also helps children with speech errors and/or those with difficulties in language patterns.

State Board of Education: Determines public school and vocational education policy and manages and directs all public schools under provisions of applicable laws.

State Department of Education: Oversees all aspects of education in the State.

State Education Agency (SEA): The State Board of Education or other agency responsible for the State supervision of public elementary and secondary schools.

State Performance Plan (SPP): The Individuals with Disabilities Education Act (IDEA) of 2004 requires States to develop a six-year performance plan. This plan (SPP) evaluates the efforts to implement IDEA and describes measurable plans for continuous improvement. OSEP has identified indicators to be included in the SPP and requires States to report progress on targets set by federal and State law to determine compliance.

State Personnel Development Grant (SPDG): A competitive grant offered by the U.S. Department of Education to States. The purpose is to improve special education services in the State.

State Special Education Advisory Panel

(SEAP): An advisory panel required by federal law in each State for the purpose of providing policy guidance with respect to special education and related services for children with disabilities in the State.

Student Assistance Team (SAT): A team of general education staff trained to assist school personnel and parents in solving difficult instructional and behavioral challenges. It is also known as a prereferral team of a school-based support team. Made up of a variety of educators who provide the teacher with ideas for interventions in the classroom.

Tactile Defensiveness: An abnormal sensitivity to touch indicated by avoidance or rejection of touching and handling. The child who has tactile defensiveness may resist touching or being touched by something that is wet, that is an unusual texture, or that is an unfamiliar temperature or pressure.

Telecommunications Device for the Deaf

(TDD/TTY): An assistive technology device attached to a telephone to enable individuals who are deaf to communicate with others.

Therapy: A treatment for certain physical or psychological conditions. The most common forms of therapy provided through early intervention and special education include occupational therapy, physical therapy, and speech/ language therapy.

Transition: The movement from one service, location, or program to another. Young children with disabilities transition at age three from early intervention to preschool special education services or to other community settings and services (early intervention and special education). Adolescents transition from school to adult services.

Transportation: A related service. If it is determined that the child needs this service to benefit from their education, the school district must provide the transportation, contract with another agency, or contract with the parents to bring their child to school. Transportation could mean round trip, home to school and school to home, services.

Traumatic Brain Injury (TBI): Physical damage to the brain that could result in physical, behavioral, or mental changes depending on which area of the brain is injured. TBI could impact a student's education; special education services might be needed.

United States Department of Education (USDE): Provides guidance, fiscal support, and technical assistance to the States.

Visual Impairment (VI): An impairment in vision that, even with correction, adversely affects a child's educational performance.

Vocational Rehabilitation (VR): A program of rehabilitation through job training focusing on the participant moving toward gainful employment.
